THE CALL for a "National Union Convention," by DOOLITTLE, COWAN, RANDALL and their associates, marks the point of absolute separation between those Republicans who mean to abide by their principles and those who design following the political fortunes of the President. The terms of the call are so definite and remarkable as to leave no doubt as to the intention of the leaders in the movement, or the destination of all who fall in with it. The manifest object is to restore the control of the Government to the set of men who held it when the rebellion was planned and launched upon the country.

It will be particularly noticed that "loyalty" is so defined as to invite to full communion all the rebel leaders. Whoever "loyally accepts the national situation, and cordially endorses the principles set forth in the call," is taken by the hand as a good man and true. On these conditions JEFFERSON DAVIS, ROBERT E. LEE and that whole set are eligible to membership, and would doubtless be received with greater honor because of their desperate efforts to destroy the Government.

AN office-holder of this county, who imagines a remark we made yesterday referred to him, sends us a note to correct our understanding of the case, in which he says: "I have never received any letter from Mr. COWAN, nor any communication, verbal or written, in which it was stated or intimated that the persons in this county holding office under the federal government were expected or desired to vote democratic tickets next fall." This is doubtless true in his case; but whoever lives and watches will see as soon as Congress shall adjourn what are the intentions of the President and Mr. COWAN in that regard. A clean sweep is certainly intended for all who stand by Congress, unless a law shall be passed, meantime, to prevent it.

A WASHINGTON telegram to the Cincinnati *Gazette* says:

"The indications are so strong that many of the Fenian leaders are about to declare for the party of liberty, that the Democrats are really becoming alarmed, especially the New York city clique, who are so largely dependent upon the naturalized wing of their party."

A special to the Philadelphia *Press* says:

"A number of Fenian leaders have visited Washington during the past two weeks and have freely announced their purpose never again to co-operate with the Democratic party."

REPORTS from Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina and Texas induce the belief that the cotton crop is below the average. In Texas the crop is good; but taking the average of all the cotton producing States, the accounts are unfavorable. Perhaps some allowance should be made for the depressed feeling which pervades that portion of the country.

THE democrats of Armstrong county have nominated JACOB ZEIGLER for Congress; E. S. GOLDEN for President Judge; SIMON TRUBY for Assembly; WM. S. RALSTON for Prothonotary; BOYD FLEMING for Register and Recorder; ISAAC HILL for Associate Judge, and THOMAS CALDWELL for County Commissioner.

THE Democrats of Bedford county have nominated A. H. COFFROTH for Congress, and B. F. MYERS for State Senate. The Bedford *Inquirer* says no ticket has been nominated for years by that party with so little enthusiasm.

THE Democrats of Juniata county have nominated DR. S. B. CRAWFORD for Congress, and JEROME HETRICK for the Assembly.

CONNECTICUT leads off. The upper branch of her Legislature has passed the Constitutional Amendment, and the lower branch will do likewise.

THE Democracy of Beaver county have nominated SAMUEL BIGLER for the State Senate, and JOHN EDGAR for the Assembly.

GENERAL NEWS.

—Steam is to be used as a disinfectant at the quarantine hospital in New York bay. It is but a short time since that Dr. FARR, one of the most distinguished men in Europe for his knowledge of sanitary affairs, in a letter addressed to the foreign corresponding secretary of the Health Board, made the statement that in London and Liverpool the use of steam as a disinfectant had taken the place of everything else. It is now in extensive use on shipboard, and always with great effect.

—Parties in St. Louis are urging a charge of corruption against Governor Fletcher, in the matter of the sale of the Southwest Branch of the Pacific Railroad to General Fremont. It is stated that D. C. Freeman and Company, a responsible firm in St. Louis, bid $1,350,000, and announced that they would go as high as $2,000,000, if necessary; but the road was awarded to Fremont at only $1,300,000. The Governor has not yet replied to the charge.

—A person who has recently visited the Shenandoah Valley says it is wonderful to see the profusion of cattle and poultry in this "denuded" valley, after the devastation it was said to have suffered. Except the absence of fences in some places, now and then a fortification or a burnt barn, no one would suppose an army had been in the valley. One or two years' crops will replace all the destruction that has been made, except loss of life.

—A serious difficulty occurred last week in Clay county, Georgia. A freedman was ordered to report to the agent of the Freedmen's Bureau. Refusing to do so, the Sheriff attempted to compel him, whereupon the negro, incensed by the violence of the Sheriff, drew a knife, rushed upon him, closed with him, and cut him so that he is not expected to survive. The persons who were with the Sheriff immediately shot the negro dead.

—The Leavenworth papers announce a thriving trade with Mexico. Scarcely a day passes without witnessing the departure of one or more long trains, each consisting of six to a dozen or fifteen wagons, and each wagon carrying nearly 5,000 pounds freight, hauled by six or eight yoke of cattle. The goods embrace every article known in trade, but principally dry goods, groceries, hardware, clothing, boots and shoes.

—Two boys, while in the woods in Wayne county, N. Y., recently, discovered a gray eagle's nest in a high tree. They climbed the tree and captured two young ones, which measure nearly three and a half feet from tip to tip. The old eagle came after them, whereupon the youngsters put their prizes under their coats and took to their heels, pursued by the mother bird.

—A few days since the yeomanry of Rockbridge county, Virginia, were called out for the purpose of reorganizing the militia service. Some of them not understanding the purport of the call, and unaware that the war was ended, thought another conscription was to be had, and accordingly fled to the mountains and the brush.

—Baron James Rothschild has a library of forty thousand volumes, which includes many rare books and valuable manuscripts.

The Wonders of Medical Science.
"Doctor," said a man to me one day, "I feel all over bruised as if I had been in a bag all day and pounded. My flesh feels sore, my side, my back and between my shoulders ache with all sorts of pains. I walk listlessly along; have no energy, and there is a torpor and sluggishness of my whole system, so that I don't care for anything and have very little care about anything. "It seems like laziness," but it isn't, for I used to be as active and energetic as any one. It can't be age, for I am comparatively a young man. I have tried all sorts of pills and powders, and still I don't get well. What ails me; what shall I do?" This is not the case of one man, but that of thousands. It is not one organ that is effected, but many. The system of such a man needs an *alterative* to tune up each of the depenative functions and make them act, so that when the current of the blood passes by and through them, no poisonous matter will be allowed to pass by that organ whose duty it is to carry it out of the system, as worn out or used up matter no longer fit to nourish and sustain life. The medicine that will do this effectually and completely, one which is a complete and perfect alterative and blood purifier, is "*Dr. Keyser's Blood Searcher.*" Science and great care have continued in its preparation, and it stands to-day peerless and without a rival in restoring and rejuvenating the weakened or wasted energies of life. Reader if you have any sickness depending on any of the causes ennumerated above, write down in your memorandum that Dr. Ke yser's Blood Searcher will cure it. Sold at 140 Wood street. Private office, 120 Penn street.

Hostetter's Stomach Bitters.
MUSHROOM IMITATIONS.
Success is the "prevalent cradle" of innumerable humbugs. No sooner had HOSTETTER'S STOMACH BITTERS made their mark in the world than up sprang a host of imitations, and as the fame of the great restorative grew and spread, the pestiferous crop of poisonous counterfeits thickened. But the medicine has lived them down. One by one they have disappeared. When the bellows of puffery, which kept alive the feeble fire of their borrowed reputation, ceased to blow, they ceased to live, and thus they continue to come and go. Meanwhile, HOSTETTER'S BITTERS, the great protective and remedial tonic of the age, have progressed in popularity with each succeeding year. Their success as a means of preventing and curing the diseases resulting from malaria, unwholesome water, and all unhealthy climatic influence, has been boundless; and as a remedy for Dyspepsia, Liver Complaint, Fever and Ague, General Weakness and Debility, and all complaints originating in Indigestion, they are now admitted to be superior to any other preparation ever advertised or prescribed. From the home market, to which a few years ago they were confined, their sale has been extended into every State in this Union, over the West Indies, the Sandwich Islands, Australia, China and Japan. Home and foreign testimony continue to show that HOSTETTER'S BITTERS are the most remarkable tonic and invigorant now before the world.

Hostetter's Bitters
Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

—Minnesota was admitted to the Union as a State May 11, 1858, with an area of 81,250 square miles. In 1850 it contained 6079 inhabitants; in 1855, 68,812; in 1857, 150,052; in 1860, 176,535. In 1850 the State had eighty sheep and five manufacturing establishments, with an annual product of $57,500. We cite these particulars of 80 very recent date only in order to render more impressive the fact that the city of Minneapolis, which was scarcely laid out ten years ago, and had the unbroken wilderness of St. Anthony's Falls for its competitor, is now manufacturing cassimere cloth, said to equal the best English manufacture in texture and durability, from wool grown in the State.

—A California paper says a large lake has been discovered in that State, from the waters of which can be obtained a large quantity of borax without much trouble, and all in a state of absolute purity. Considering the fact that the world is now dependent on the lagoons of Tuscany for its borax, and the contingency that this foreign supply may at any time be cut off, this discovery is of no little importance.

—The Government is preparing to proceed against delinquent and defaulting postmasters in the late rebellious States. The total amount of this class of indebtedness is about $300,000, of which $100,000 has been paid on demand, and nearly the same amount put in process of collection.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON CITY, June 26, 1866.

SENATE.

Leave of absence for the residue of the session was granted to Mr. Lane, of Kansas, on motion of Mr. Lane, of Indiana.

Mr. Chandler, from the Committee on Commerce, reported a joint resolution authorizing the Cleveland and Pittsburgh Railroad Company and the Cleveland and Toledo Railroad Company, either or both jointly, to construct a swinging bridge over the government piers across the Cuyahoga river.

Mr. Edmunds offered a proviso by way of amendment, that Congress may alter or repeal this provision, which was adopted.

The joint resolution, as amended, was then passed.

The Senate then took up the House bill, amendatory of the organic act of Washington Territory. It makes the sessions of the territorial legislature biennial instead of annual, and increases the compensation of members from three to six dollars a day. The bill was passed.

Mr. Stewart called up the House bill to create the office of Surveyor General of Idaho Territory, which was passed.

Mr. Howe moved to take up the House bill to establish a ship channel round the Falls of Niagara. This was disagreed to by, yeas 17, and nays 19.

A bill to reimburse the Wyandotte Indians for the amount of two churches and a library destroyed, (Mr. Doolittle said, by the border ruffians at Kansas,) was passed.

The bill to amend and continue in force the bill establishing the Freedmen's Bureau was taken up and read.

Mr. Davis moved to lay the bill on the table. This was disagreed to—yeas, 6; nays, 27—after discussion, in which Messrs. Wilson, Hendricks and Trumbull participated.

Mr. Buckalew moved to amend by providing that the bureau shall remain in existence one year instead of two. This was disagreed to: yeas, 6; nays, 26.

Mr. Hendricks moved to strike out the 14th section. This was disagreed to.

Mr. Hendricks moved to strike out from the third section the following words, "and the Commissioners shall, under the direction of the President, and as far as, in the same in his judgment be necessary for the efficient and economical administration of the Bureau, appoint such agents, clerks and assistants as may be required for the proper conduct of the Bureau." This was disagreed to.

Mr. Hendricks moved to amend by striking out the provision declaring all persons in the employ of the Bureau to be under military jurisdiction and entitled to military protection of the Government while in the discharge of their duties. This was disagreed to. The bill was then passed and goes back to the House for concurrence in the amendments. Its provisions are as follows:

Section 1. That the act to establish a Bureau for the relief of Freedmen and Refugees, approved March 3d, 1865, shall continue in force for the term of two years from and after the passage of this act.

Section 2. That the supervision and care of said Bureau shall extend to all loyal refugees and freedmen so far as the same may be necessary to enable them, as speedily as practicable, to become self-supporting citizens of the United States, and to aid them in making the freedom conferred by the proclamation of the commander-in-chief, by emancipation, under the laws of States and by Constitutional amendment, available to them and beneficial to the republic.

Section 3. The President shall, by and with the advice and consent of the Senate, appoint two assistant Commissioners, in addition to those authorized by the act to which this is an amendment, and they shall be assigned to districts by the Commissioner, with the approval of the President; and the Commissioner shall also appoint, under the direction of the President, such agents and clerks as may be necessary. Military officers or enlisted men may be employed, but without increase of employees. The Commission is required to give preference to men who have done faithful service in the army, and all persons appointed to serve under this act, and the act to which this is an amendment, shall be so far deemed in the military service of the United States as to be under military control.

And, whereas, in accordance with instructions issued by President Lincoln on the 16th day of September, 1863, to the United States District Tax Commissioner for South Carolina, certain lands sold in by the United States in the parish of St. Helena, in said State, were in part sold by the said Tax Commissioners to heads of families of the African race, in parcels of not more than twenty acres to each purchaser, and whereas, under the said instructions the said Tax Commissioners did also set apart as a school farm certain parcels of land in said parish, numbered in the plan or survey of the thirty-three inclusive, making an aggregate of 6,000 acres more or less, therefore

Be it further enacted, That the sales made to heads of families of the African race under the instructions of President Lincoln to the United States district tax commissioner for south Carolina, of the date of September 16th, 1863, be and the same are confirmed, and all leases which have been made to such heads of families by said Tax Commissioners shall be changed into certificates of sale, in cases wherein the lease provides for such substitution, and all the lands now remaining unsold which come within the same designation, being eight thousand acres, more or less, shall be disposed of according to said instructions.

Section 7. That all other lands bid in by the United States at tax sales, being thirty-eight thousand acres, more or less, and now in the hands of the said Tax Commissioners as the property of the United States, in the parishes of St. Helena and St. Luke, excepting the school farms, as specified in the preceding section, and so much as may be necessary for military and naval purposes at Hilton Head Bay Point and Lands End, excepting also the city of Port Royal, on St. Helena Island, and the town of Beaufort, shall be disposed of in parcels of not more than each at one dollar and fifty cents per acre, to such persons and to such only as have acquired and are now occupying lands under and agreeable to the provisions of General Sherman's special field order, dated at Savannah, Georgia, January 16th, 1865. The remaining lands, if any, shall be disposed of in like manner to such persons as had acquired lands agreeably to the said order of General Sherman, but who have been dispossessed by the reinstatement of the same to former owners in pursuance of the law and land in terms of 3 years, and it may be converted into a certificate of sale on the payment of one dollar and fifty cents per acre.

Section 10. The direct tax commissioners of South Carolina are required to survey the lands designated and lay them out in suitable tracts of forty acres.

Section 11. After the completion of the transfers of said lands in the manner specified, the President of the United States may restore to the former owners lands occupied by persons under Gen. Sherman's order, excepting such lands as have been sold for taxes; but such restoration shall not be made before the crops of the present year shall have been gathered, and till fair compensation shall have been paid to the occupants for improvements.

Section 12. The Commissioners shall have power to seize, hold or sell lands and buildings formerly owned or claimed by the so-called Confederate States, and not heretofore disposed of by the United States. The proceeds thereof shall be appropriated to the education of the freed people, and when the Bureau shall have been withdrawn the funds which have made provision for the education of their citizens without distinction of color shall receive the sums remaining unexpended, the distribution to be made for educational purposes in proportion to the population.

Section 13. The Commissioner shall co-operate with private associations for the benefit of the freedmen and protect the schools established by them.

Section 14. In all the States lately in rebellion, and until such States are duly represented in Congress, the right to make and enforce contracts, an I to all other civil rights, shall be enjoyed by all citizens, without distinction of color, and until the constitutional relations of such states are restored, the President of the United States shall, through the officers of the Bureau, prescribe military jurisdiction concerning the enjoyment of such immunities, and no greater punishment shall be inflicted upon colored people for violations of the law than that to which white persons are liable. The jurisdiction conferred upon officers of the Bureau by this section shall cease in every State when the administration of justice by the civil courts and United States Courts is undisturbed and the State is represented in Congress.

Section 15. All officers of the Bureau shall take the oath of office, and all acts inconsistent with the provisions of this act are revoked.

At half-past two, the Senate adjourned.

HOUSE.

Mr. Bingham, from the Committee on Military Affairs, reported a bill for the payment of the Sixth, Eighth and Eleventh regiments of Ohio volunteer militia of Cincinnati, Bard's company of cavalry, and Hall's battery, during the time they were in the service of the United States. Passed.

Mr. Allison called up the motion to reconsider the vote whereby some days since a bill to pay bounties to the Thirty-seventh Iowa volunteer infantry, known as the Greybeards, was, on the report of the Military Committee, laid on the table. After discussion the bill was passed.

Mr. Price, from the Committee on the Pacific Railroad, reported back the Senate bill to aid in the construction of a railroad and telegraph line from the States of Missouri and Arkansas to the Pacific coast with amendments, which was ordered to be printed and recommitted.

Mr. Farquhar, from the Conference Committee on the joint resolutions for the relief of Messrs. Goodrich & Cornish, for carrying the United States mails from Boise City to Idaho City, in the territory of Idaho, made a report reducing the amount from twenty thousand to ten thousand dollars, which was agreed to.

Mr. Elliott, from a Committee of Conference, reported back the Senate bill to regulate the transportation of nitro-glycerine, with amendments, extending the provisions to nitroleam or linking oil, or nitrate oil, or powder mixed with any such oil or substance, changing the penalty from five hundred dollars to not less than one thousand dollars nor more than ten thousand dollars, and requiring the substance to be surrounded by plaster of paris, or other material that will be non-explosive when saturated with such oil or substance.

The amendments were agreed to, and the bill as amended was passed.

Mr. Elliott, also from the same Committee, reported a bill declaratory of the act of February 16th, 1866, authorizing the Secretary of the Treasury to issue registers to vessels in certain cases, which was read three times and passed.

Also, a bill making the town of Whitnall, N. Y., a port of delivery within the collection district of Champlain, which was read three times and passed.

Also, a bill constituting Omaha and Nebraska, in the Territory of Nebraska, and St. Paul, in the State of Minnesota, ports of delivery, which was read three times and passed.

On motion of Mr. Elliott, the Committee on Commerce was discharged from the further consideration of the letter of the Secretary of the Treasury, in reference to the pay of Inspectors of Customs, and the same was referred to the Committee of Ways and Means.

Mr. Elliott, from the Committee on Commerce, reported back with sundry amendments the Senate bill to further prevent smuggling, and for other purposes.

A bill to reimburse the Wyandotte Indians for the amount of two churches and a library destroyed, (Mr. Doolittle said, by the border ruffians at Kansas,) was passed.

The bill to amend and continue in force the bill establishing the Freedmen's Bureau was taken up and read.

Mr. Davis moved to lay the bill on the table. This was disagreed to—yeas, 6; nays, 27—after discussion, in which Messrs. Wilson, Hendricks and Trumbull participated.

Mr. Buckalew moved to amend by providing that the bureau shall remain in existence one year instead of two. This was disagreed to: yeas, 6; nays, 26.

Mr. Hendricks moved to strike out the 14th section. This was disagreed to.

Mr. Hendricks moved to strike out from the third section the following words, "and the Commissioners shall, under the direction of the President, and as far as, in the same in his judgment be necessary for the efficient and economical administration of the Bureau, appoint such agents, clerks and assistants as may be required for the proper conduct of the Bureau." Sun Stroke Cases—Doubt About the Existence of Asiatic Cholera on our Shores—Large Fenian Meeting—The President Denounced—Santa Anna has $10,000,000 in Specie in England, and Proposes to Establish a Stable Government in Mexico, with the Latter at the Head—The New Tariff Bill—Maximilian's Demand for Financial Assistance From France Refused—The Reported Fenian Skirmish in Canada—Lewis Mistaken for "Irish Bulls."

NEW YORK, June 26.—Quite a number of cases of sun stroke are reported by the police to-day. The thermometer is ninety-six deg. in the shade.

It is seriously doubted by surgeons if there be any such thing as Asiatic cholera on these shores. The cases heretofore classed as such are of the usual character, brought on by impurity or intemperance.

A large Fenian meeting was held by the friends of Roberts and Sweeny, in Fenian square, last evening. Resolutions were passed denouncing the President and the neutrality law. Mr. Roberts could not attend, but sent a polite letter of excuse.

According to the *Tribune*, General Santa Anna, has now one million dollars on deposit in the bank of England. He proposes to establish a new and stable Government in Mexico, of constitutions and laws similar to those in England, with the Church for its head. One of its essential conditions is, however, a complete association of principles and interests between the United States, and upon the following basis: The United States to advance to him (Santa Anna,) one million dollars and three thousand men, in exchange for which he will swear eternal enmity to and to burn down his stable, which is in close proximity to Mrs. Lincoln's residence. A warrant was issued for the arrest of the accused.

Disorderly Conduct.—Ellen Dougherty was charged before Alderman Donaldson yesterday with disorderly conduct. Margaret Hickey, the prosecutrix, states that Ellen paraded up and down Point Alley, in the First ward, yesterday morning at two o'clock, disturbed by calling the passers-by all sorts of hard names. After a hearing the case was settled, the defendant paying the costs.

Early Closing.—Employees in dry goods stores of the city are agitating the question of early closing, but as yet no definite step has been taken in the matter. Last year, at this time, dry goods establishments closed their doors at five o'clock p. m. What is there in the nature of the times that requires a different state of things now? We can't see it.

FROM KENTUCKY.

Convicted of Murder—Tobacco Receipts Enthusiasm of Union Men.

LOUISVILLE, June 26.—At Nashville, in the criminal court, Green and Lyman were convicted of the murder of Byron, a toll keeper, who was shot last December.

Fifty hogsheads of tobacco were received today from the Upper Cumberland.

At Frankfort great enthusiasm prevails among the Union men at the nomination of General Hobson as clerk of the court of appeals. Arrangements are being made for an immense ratification meeting to-morrow.

Re-establishment of Slavery—Memorial to Congress on the Subject.

CHICAGO, June 26.—The memorial to Congress, printed in pamphlet form, of David Quinn, of this city, advising the re-establishment of negro slavery, has just appeared before the public. It presents the subject under a view in which it has probably not hitherto been considered. It holds that men are divided in species and have different natures, that the negro finds his civil liberty in his slavery and that the white man undergoes a change in America, which makes slavery essential; that the French in Canada, and the Spaniards in Mexico, have degenerated, and that the native people of the Northern United States are now three inches less around the chest than the Europeans. The author brings forward many historical and scientifical facts in support of his argument.

Illness of Senator Lane—Case Decided.

ST. LOUIS, June 26.—Senator Lane, of Kansas, is quite ill at the Lindell Hotel, in this city, threatened with paralysis. Physicians dont think it possible for him to take his seat in the Senate again this session, and advises him to go to the Bedford Springs as soon as he is able to travel.

The case of General Blair versus the Judges of the election, for refusing to receive his vote without first taking the oath prescribed, was decided against General Blair, in the general term of the Circuit Court, yesterday. This is the first decision involving the validity of voters' oaths in this State.

Trains are now running through to Leavenworth, Kansas, from this city via Missouri Pacific Railroads.

Another Railroad Accident.

MEMPHIS, June 26.—A freight train on the Mississippi Central road ran through a trestle three miles north of Grenada, yesterday, killing a negro brakesman, and injuring severely William Shelton and son, of Omaha, and two others, and demolishing the tender and two cars.

It is reported that the crops in Arkansas and Mississippi are more encouraging, but it is thought the crops will be thin.

The river is stationary. Thermometer, 92°.

Maine Congressional Nomination.

PORTLAND, ME., June 26.—The first district Union Convention at Saco to-day renominated Hon. John Lynch as representative to Congress. The resolutions were the same as at the State Convention.

Constitutional Amendment in Connecticut.

NEW HAVEN, (Conn.,) June 26.—The Connecticut Senate ratified the Constitutional amendment at midnight last night. The House will concur.

Maine Legislature to be Convened.

AUGUSTA, ME., June 26.—Gov Coney will convene the Legislature in extra session, to act on the Constitutional amendment, if a sufficient number of Governors will do the same to accomplish the object.

CITY AND SUBURBAN.

Additional Local Matters on Third Page.

A Want Supplied.

A want long felt in this city has at length been supplied. We refer to the wholesale depot for the sale of mathematical and optical instruments, recently established at 36 Smithfield street, by Messrs. Hasiett & Co. They have opened a choice assortment of all descriptions of fine mathematical instruments, and barometers, by tromoters, thermometers, and all style of glasses for wear or field use. They have made a speciality of this line of goods, and are prepared to job or retail at prices as low as those of the original manufacturers. They keep nothing but the quality of goods which they make for them a reputation, and prove all that is guaranteed when sold. They received the exclusive agency for the justly celebrated "Mooney's Time Registering Barometer," which they offer to artizans, especially among steamboatmen, when its merits are properly known and understood. It is very generally used by farmers and merchants, as well as seamen, and combines a barometer, clock and thermometer, and can be depended upon for indicating the changes of the weather. The firm also deal in opera glasses, stereoscopic views and numberless articles of similar character. They are clever, fair dealing, accommodating gentlemen, and we bespeak for them a large share of business patronage. Their card appears elsewhere.

Benefit at the Old Theatre.—The amusement loving community will bear in mind that the worthy treasurer of the Pittsburgh Theatre takes a benefit on saturday night next. To-night Mrs. Julia Sylvester takes a benefit at the Old Drury, and as there is an excellent bill offered, she will be greeted by a large audience. She is a pleasing and painstaking actress, and is worthy of a substantial benefit. To-morrow evening Mr. Wentworth, one of the best stock actors in the city, will make a bow to his friends, it being the occasion of his benefit. He is a good fellow, and a perfect gentleman, and we wish for him such a benefit as no other actor ever received from the Pittsburgh people.

Death from Sun Stroke.—About two o'clock yesterday afternoon a man named John Harper was sun stricken while at work in Plum alley, in the rear of the Mansion House. He was taken to Burke's drinking saloon, where medical aid was procured and the proper remedies applied, but despite the exertions of the physician he continued to sink steadily until seven o'clock last evening, when he expired.

Died.—Joseph Schanoffer, the boy who was run over by a buggy on the Perrysville plank-road on Sunday, died of his injuries last night about eight o'clock. The gentlemen who were in the buggy at the time of the accident have not waited assiduously on the deceased up to the hour of his death, doing everything in their power to alleviate the pain of the little sufferer. There will be an inquest held on the body to-day.

Threw Dust in His Eyes.—Mrs. Lamb, a resident of Stanwix street, in the First ward, was sued before Alderman Donaldson, yesterday, for surety of the peace. Daniel Lamb, the husband, had been annoyed by Mrs. Lamb throwing dust in his eyes and threatening to burn down his stable, which is in close proximity to Mrs. Lamb's residence. A warrant was issued for the arrest of the accused.

Disorderly Conduct.—Ellen Dougherty was charged before Alderman Donaldson yesterday with disorderly conduct. Margaret Hickey, the prosecutrix, states that Ellen paraded up and down Point Alley, in the First ward, yesterday morning at two o'clock, disturbed by calling the passers-by all sorts of hard names. After a hearing the case was settled, the defendant paying the costs.

Didn't Steal It.—Joseph Graham yesterday appeared before Justice Lippert and made oath against Adam Fuller for stealing from him a butcher-knife, valued at $1.50. The accused was arrested and a hearing had, at which Mrs. Graham testified that she had loaned the knife to Fuller. Of course the case was dismissed, the prosecutor paying the costs.

Libel Suit.—C. L. Phelps, Esq., of the Girard *Spectator*, has been served by Senator Lowry for libel. The suit is based on an extract copied into the *Spectator* from the Harrisburg *Patriot*, containing a report of Dan Rice's speech at the State capital, in which Mr. Lowry is handled rather roughly.

Fractured Her Shoulder.—A little girl named Mollie Curtin, while at play on a pair of steps on the corner of Market street and Whiteside alley, in the Sixth ward, yesterday afternoon, fell to the ground, a distance of six feet, and fractured her shoulder. Dr. Cahill attended to her injuries.

Larceny of a Piece of Iron.—William Kyle was made oath before Alderman Taylor yesterday against James Kernan for the larceny of a piece of iron, valued at two dollars, from Hussey & Wells' Steel Works, in the Ninth ward. Kernan was arrested and, after a hearing, committed for trial.

Fire on First Street.—Yesterday afternoon between four and five o'clock, the roof of Dr. Crittenden's residence, No. 131, First street, was discovered by some of the employees of Anderson & Co's foundry to be on fire. The flames were extinguished without doing any serious damage.

Not a Manager.—Lieut. David Campbell desires us to state that the use of his name as a manager of a pic-nic, to be held at Glenwood on the fifth of July, is unauthorized and unwarranted, he being totally ignorant of the matter until publicly announced.

Committed.—John Cash and Michael Hall, charged with outraging Amelia Narawig, near Allegheny City, on Sunday night, were detained in the tombs during Monday and Monday night, and yesterday committed to jail by Mayor Morrison for trial.

Taken Over.—Patrick Lally, sentenced for one year and nine months for larceny, and James Stewart three years for felonious assault, were taken to the penitentiary yesterday by Sheriff Stewart.

Settled.—The suit between Amelia Humburg and John Myers, noticed elsewhere, was amicably settled by the parties last night, at Alderman Strain's office.

An Inquest.—A man, whose name we could not learn, died very suddenly in Strawberry alley last night. The Coroner will investigate the mat

COL. FORNEY'S SPEECH.

On Friday last Col. JOHN W. FORNEY delivered an address before a large audience of ladies and gentlemen, assembled in the Court House, in the borough of Lebanon. His theme was the present aspect of national affairs; and on it he spoke with the freedom and boldness which are conspicuous traits of his character. He avowed himself unmistakably against the Policy of the President, which tends to remit the political power of the government into the hands of the men who sought the destruction of the Union. He gave in his adhesion to the Congressional Scheme of Reconstruction; although he indicated a personal inclination to something more, and in the direction of impartial suffrage.

At the close of the address he avowed himself a candidate for the United States Senate to fill the vacancy to be made by the expiration of the term of Mr. EDGAR COWAN. He said:

"My name having been suggested as a candidate for the United States Senate at the close of the term which expires on the 4th of March, 1867, it is proper that my opinions should be known, and I think every aspirant for the same high honor should be called upon explicitly to define his own position. I am vain enough to believe that I am qualified to discharge the duties of a Senator from Pennsylvania."

Upon this frank and manly statement we have several observations to make.

1. We have desired the question of United States Senator should not be mixed up with the current canvass. Not that we have deemed the presentation of claims, aspirations or preferences as intrusive at this time; but because we have conjectured that sharp competition at this early period might endanger future harmony, and, perhaps, expose to some risk the chances of being able to control the election when the time for choice should arrive.

2. We believe that every aspirant for the Senatorship should put himself on the record, so far especially as relates to the paramount issue now presented forsolution. Not that we desire to force candidates to the avowal of views altogether coincident with our own; but in order that it may appear whether or not they represent the average convictions and purposes of the Republican party. Any man who either conceals the ground on which he stands, or fails to let his position be known, ought, and will, be counted out.

3. We like the candor with which the Colonel, not simply admits he would like to be Senator, but asserts his consciousness of ability rightly to discharge the duties of that high office. In his case this is not vanity or egotism. He has measured intellectual strength with many eminent men, and has taken, by active competition, the gauge of his own capacities. He is not mistaken in his judgment of himself.

4. Since this question of the Senatorship, against our wishes, has been brought up so prominently for consideration that it cannot be put aside, we shall take an early occasion to present one or more aspects of it.

PITTSBURGH.

ABSORPTION OF MEXICO.

Any intelligent man, looking at the map of the American Continent, will see why some of our countrymen are inclined to plead for the acquisition of a slice of Mexican territory. Chihuahua, Sonora, Lower California, and perhaps Sinaloa, hold such geographical positions as to present temptation for their capture or purchase. Persons who consider fully the growth of this republic, and the tendencies developed in its expansion, cannot doubt that at some future period, and that not far distant, these provinces will fall into our possession.

This consideration explains, to a large extent, why members of Congress commit themselves to the policy of making a loan to the itinerant administration of the Mexican republic. Since the suppression of the rebellion, they do not apprehend danger to the Union from the proximity of monarchical institutions. Nor do they cherish the delusion that any government the Mexicans may set up, or that may be established over them—and least of all, one republican in substance as well as in form—will put an end to the chronic agitations and insecurity of Mexican society. Nothing less than a most stringent military despotism can hold the disordered passions and appetites of that wretched people in subjection, and even French and Austrian intervention have proved insufficient to maintain such a rule. There seems to be nothing left for the Mexicans but to debase and consume themselves in internal dissensions and fratracidal conflicts. While this process is going on certain American statesmen are planning to lay the basis of a claim which shall result in territorial indemnity. In this project we do not sympathize. The burden of the public indebtedness presses heavily on the shoulders of our people. Members of Congress have become accustomed to vote millions where formerly they voted thousands. The facility and cheerfulness with which large sums have been provided by the people, invites presumption. Calculations suggested by common prudence, of commercial embarrassments and financial revulsions, are put aside as inspirations of timidity if not of cowardice. It is thought to be only a trifle to squander fifty millions of dollars upon the leaders of faction in Mexico, and take the chances of ultimately obtaining satisfaction at the point of the bayonet. We had rather keep the fifty millions and run the chance of acquiring what territory we need when occasion for it actually arises.

THE Richmond *Whig* exhorts the Northern party which calls itself "democratic" to change its name, because "democrat and copperhead have become synonymous terms during the war; the attitude assumed by the party towards the Government has caused an odium to attach to it in the public mind which cannot be overcome." It is somewhat probable this hint will be taken. Cowan and Doolittle suggest it shall be called the "National Union Party." But a snake that has changed its skin, is still the same snake it was before.

GEN. MOORHEAD.

In speaking of this gentleman's qualifications for Congress, Mr. GNAT SAWYER holds the following editorial language in his "*Republic*" of yesterday's emission:

"In this learning, so essentially important to the proper discharge of the duties of a Congressman, our Representative Gen. Moorhead, is most lamentably deficient. It is very probable that he has not read the history of many nations, ancient or modern, much less given years of careful and critical study to an analysis of their peculiar institutions, the reasons for their laws and institutions, the causes of their prosperity, or the manner, mode or instrumentalities which worked their decay and downfall. Employed in early and middle life in the more congenial, and *harassing*, and debasing pursuits of "money making," a knowledge of political ethics has remained to him as profound a mystery as would be now the problem or its demonstration of the "*pons asinorum*."

Let us apply this sort of logic to "Gnat." Employed in early and middle life in the more congenial and debasing pursuit of a tallow chandler—now proudly exultant over the triumph of his skill in the production of the wonderful saponacious combination known as Sawyer's Chemical Erasive Soap, and anon appearing in his favorite character of the "Woman's Friend," and even at this hour a burly knight of Pots and Pearls, what knowledge can he possibly have of political ethics or of the duties or requisite qualifications of a member of the National Congress? Having none of the learning essential to a just estimate of men, but being lamentably deficient therein, how does he thus brazenly assume to judge for others, who is best fitted for "dip," "mould," "star," or "adamantine" in the political firmament? Confessedly ignorant of all save his great oleaginous speciality, (wherein we bow to the supremacy of his genius,) by what right or with what propriety does he assume to be an "editor" and a competent teacher of the people? Has he himself read the history of many nations ancient or modern—saving always "ye Historie of ye four Kyngs," and that of ancient and modern *Greece?* Has Mr. SAWYER given years of careful and critical study to an analysis of political institutions or have his researches been chiefly given to the properties and phenomenon of borax and stearine? Is he more familiar with the manner, modes and instrumentalities which work the downfall of nations, or with the climatic causes which lead to the decay of virtue in the "woman's friend," or the downfall of price in genuine Rosin? Can he demonstrate wherein the modern pontoon wherewith he is vainly essaying to bridge the chasm between the *pons asinorum* differs materially from loyalty and disloyalty?

These, we trust, pertinent and instructive inquiries suggest their own answers, and we would affectionately caution the editor of the *Republic* against venturing upon such recondite topics hereafter. As there are some inventions, which being taught, may and do oft return to plague the inventor himself! PARAFFINE.

"Cumberland Presbyterian Assembly."

EDITORS PITTSBURGH GAZETTE :—In your issue of last Monday morning you publish, upon the authority of the *Western Cumberland Presbyterian*, that the recent action of the above named Assembly, wherein it was resolved that no opinion with regard to slavery or the rebellion was expressed, was "alike satisfactory" to the delegates in that body from the North and the South.

While the GAZETTE no doubt quotes correctly from the *Presbyterian*, and is at no fault at all in the matter, yet it is very strange that such a statement should be made by the *Western*. Upon the adoption of the resolutions the "yeas and nays" were called, and almost every member from the North voted "no," and was so recorded upon the minutes; and yet they are represented as being alike satisfied with the Southern members!

In regard to the action of the Assembly in question there is a deep and widespread dissatisfaction in the churches of the North; indeed, the prevailing sentiment in this part of the Church is, that *as* the question of slavery and rebellion were again brought into the discussions of the Assembly, that body, as a matter of duty and faithfulness to God, to His truth, and to our country, should have most emphatically re-affirmed the righteous deliverances of 1864 and 1865.

Nothing less than this, under the circumstances, we think, ought to have satisfied any friend of either "God" or "Cæsar."

Respectfully yours,

PITTSBURGH.

POLITICAL.

—The name of Andrew Sherman, editor of the Chicago *Journal*, has been placed on the slate of the Illinois ring for Postmaster of Chicago.

—Generals Frank Blair and McClernand are stumping the State for the Conservatives, (Price's rebel army;) Governors Stone, of Iowa, and Oglesby, of Illinois, for the Radicals.

—There it likely to be a pretty hot contest for the Union Congressional nomination in the First District of Minnesota. Mr. Windom is understood to be a candidate for a re-nomination, while ex-United States Senator Wilkinson, Governor Armstrong, Hon. J. V. Daniels, Hon. G. E. Cole, Col. H. G. Rogers, and several other aspirants, are in the field.

—There have been a large number of Union County and District Conventions held in Iowa, during the past two or three weeks, and in no instance has there been a proposition submitted to endorse "my policy;" and in sustaining the action of Congress the unanimity among true Republicans is as decided and general as it was for sustaining the Government when threatened by the arms of rebels and traitors and the peace principles of the Four years-of-failure party.

—At the Congressional Convention of the Second District of Iowa, held on Friday last, after the re-nomination of Hon. Hiram Price, the following among other resolutions were passed:

"That the reconstruction of the States lately in rebellion belongs, through their Representatives in Congress, to the people who have subdued the rebellion and preserved the nation, and not to the Executive alone.

"That in the firm and manly adherence of the Union party in Congress to the above principles, we recognize the only safety of the nation, and we hereby pledge to Congress our continued and earnest support and sympathy."

A MAJESTIC REBEL.—A person named Bagley, proclaiming himself an ex-confederate officer, takes the trouble to contradict, through one of the Galveston papers, a report that some general officer stopping at one of the hotels, had solicited and received an appointment from the President. Bagley writes:

"I believe I can say for Gen. Evans [Ball's Bluff Evans] as for myself that we have at no time held any intercourse with persons of the vocation to which, as I am informed, Mr. Johnson belongs, except in relation to the making or repairing of clothes."

It is suggested that Bagley must have applied for pardon and got snubbed.

—From a Matamoras letter in the Cincinnati *Commercial* we collate the following:

A picturesque sight, morning and evening, at Davis and Camargo, are the numerous bathers, men and women, sporting in the Rio Grande and San Juan. While bathing, the women vail their charms only with a thin wrapper, tied by the sleeves about the throat, and many appear careless of even that precaution. Custom in this warm climate is less prudish, yet I am told there is no more lack of virtue among the lower orders here than elsewhere. The females marry very young—frequently at fifteen years of age.

—The total valuation of real estate in Memphis this year is $46,000,000, against $17,000,000 last year. Many complaints are made, but the Board of Assessors answer by stating that numbers of men are ready to buy at that price.

GENERAL NEWS.

—Dogs are being drowned at the rate of an hundred per day by the authorities of New York.

—Two young girls in Memphis tried to frighten a companion by holding her on the railroad track as a train was approaching. The fright didn't kill her, but the engine did.

—A German girl at Mt. Palestine, Iowa, was taken from her house, a few night sago, by four men, whose faces were blackened, stripped of all her clothing, and tarred and feathered. The act is believed to have been instigated by her adopted mother, out of sheer spite.

—The claim agents are preparing for the golden harvest. One of the principal firms in Washington is expecting to realize a fortune by collecting claims under the new bill. About half the estimated amount, unless the negroes are very careful, will go into the pockets of these sharpers.

—Thurlow Weed is in Washington. It is presumed that his business there is to arrage for a National Convention of the people as proposed and advocated lately in the New York *Times*, whereby the country at large is to declare between Congress and the President, or failing to do either, to indicate some new programme for complete re-union.

—In the Common Pleas Court of Columbiana county, Ohio, Rev. O. M. Todd and wife, of New Lisbon, have recovered $2,500 damages from Robert Whitacre for circulating reports derogatory to the lady's chastity. The New Lisbon *Buckeye State* says the fact that Mr. Todd was pastor of the Presbyterian Church in that town, and the energy with which the defense strove to sustain the justice of the slanderous charges, excited intense interest, and gathered the largest audience that ever attended a trial in the county.

—It is said that Gov. Hamilton, of Texas, is now in Washington to express his disapprobation of the policy of the Administration. He is expected to make a speech shortly, in which he will take the following stand: "That Union men without the protection of bayonets in the South, are liable to persecution and personal injury; that the election for Governor, now coming off in a few days, in which Throckmorton is known to be sure of success, will more than ever encourage insult and malace towards the Unionists.

BROWN'S VERMIFUGE COMFITS, OR WORM LOZENGES.—Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no positive injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often cause prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation which can be removed only by the use of a sure remedy. The combination of ingredients used in making BROWN'S VERMIFUGE COMFITS is such as to give the best possible effect with safety.

Old Man Stabbed and Cruelly Beaten.

A desperate row occurred in Church alley, near the Academy of Music, yesterday in which an old man named Patrick Kearney, was stabbed in the side with a pen knife and afterward beaten in a shocking manner. The origin of the quarrel, as stated by Kearney, is as follows: He had returned from his work at noon and while washing himself at his own door, a young man named Thomas Laughrey, whose dwelling adjoins that of Kearney's, came up behind and struck him in the neck. Kearney turned around to defend himself when Laughrey's sister picked up a boulder and struck him in the side, knocking him down, then both jumped on him and beat him in a most cruel manner. While endeavoring to escape from their clutches, young Laughrey stabbed Kearney in the side, inflicting a wound of about ten inches in depth, which, although painful, is not of a serious nature. The interposition of Kearney's wife saved him from further abuse and his assailant fled.

As soon as Kearney had his injuries dressed he repaired to the office of Alderman Lynch and preferred charges of assault and battery with intent to kill against Thomas Laughrey and his sister, Sarah Laughrey, for whose arrest warrants were immediately issued; but owing to the fact that they had sought safety in flight they could not be found. We understand that the present quarrel was the result of an old animosity between the parties, caused by Kearney—who occupies rooms in Laughrey's house—refusing to move until he should become suited in other quarters.

Robbery in Kittaning—An Extensive Haul Made.

The store of Mr. Willis, in Water street, in the borough of Kittaning, Armstrong county, was entered on Saturday night by thieves and robbed. The robbery is supposed to have been committed about midnight, and was evidently the work of an expert rogue. An entrance was effected by forcing open the front shutters and then removing a pane of glass twelve by sixteen inches in size. Once inside, the thieves made a careful examination of the stock, and selected such articles as could be easily transported." The office desk first attracted their attention, and after forcing open the drawer, they obtained a pocket book containing upwards of one hundred and eighty dollars in legal tenders and United States currency. Besides this they carried off a certificate of deposite on the Kittaning Bank for four hundred dollars, dated May 9th, 1866, payable to J. E. Wells, with a credit on the back of $174.85, and several other valuable papers. Among the articles carried off were revolvers, pistols, pen knives and sundry other articles, the whole amounting to about six hundred dollars. There is no positive clue to the thieves, but it is supposed to have hailed from Pittsburgh. Two of the revolvers taken were Sharp's patent four shooter, the main spring in each being broken. One was of Allen & Wheelock's patent, and two small seven shooters, silver-plated, the main spring being out of each.

Mr. Willis offers fifty dollars reward for the apprehension of the thieves.

Court of Quarter Sessions.

Judges Sterrett and Brown on the bench.

TUESDAY, June 26.—In the case of Richard B. Young, et al., composing the Pearl Oil Company, operating a refinery near Temperanceville, the jury found a verdict of not guilty on the first count of the indictment, but guilty on the second and third counts—amounting, in plain words, to a conviction for keeping and maintaining a nuisance. Sentence was deferred, and there will likely be a motion entered in arrest of judgment and for a new trial.

John Donahue pleaded guilty to an assault and battery, and was fined five dollars and the costs. The same party was defendant in a surety and keeper bound, found the way the costs.

August J. Manti was indicted for felonious assault and battery, but was allowed by the Court to enter a plea of assault and battery. Sentence deferred.

Peter Kaltenborn, of the Eighth ward, indicted for selling liquor without license, plead guilty to the indictment. The latter of Messrs. John H. Caster was tried and convicted for the larceny of a "white cow with red ears," but recommended to the mercy of the court, there being much doubt as to such a character as to create grave doubts as to defendant's felonious intent. Sentence deferred.

Mrs. Jane Fletcher, of Temperanceville, was indicted for selling liquor without license on the evidence of J. R. Larimer, who was specially appointed to make a return of the liquor dealers of the borough. The jury acquitted her and required the county to pay the costs.

William Boniface and James Kernan were tried and found guilty of the felonious cabbles, on the Allegheny wharf, belonging to James Shallenberger. Sentence deferred.

A Variety of Charges.

John Meyers, who was arrested on Tuesday morning while in the act of crawling through a window in the house of Amelia Humburg on the corner of Sixth and Grant streets, had a hearing yesterday before Mayor McCarthy. Mrs. Humburgh also alleges that Myers struck her in the face and threatened take her life. John being unable to gave satisfactory reasons for his conduct was held in three hundred dollars for his appearance at court. Subsequently, Amelia, not yet satisfied, went to Alderman Strain and made three more charges against Meyers, one for false pretence, one for larceny, and one for selling liquor without license. A hearing will be had to-day.

Child Run Over.—While driving up First street, yesterday, in a light buggy, Dr. McDonald ran over a little girl named Annie McAnulty, who, at the time of the accident, was engaged at play with some companions. The doctor went immediately to her assistance, when it was discovered that the wheel had passed over her right foot causing her to fall to the pavement with such violence as to injure her about the head, and it is supposed internally. Those who witnessed the occurrence freely exhonorate the doctor from all blame in the premises.

Charged with Keeping a Bawdy House.—Patrick Kearney yesterday appeared before Alderman Edward Lynch, of the Third ward, and made an information against Mrs. Doyle, a resident of Church alley, for keeping a bawdy house. The deponent alleges that he is frequently annoyed by men and women going to and from Mrs. Doyle's at all hours of night, and that their conduct on those occasions has a tendency to injure the public morals. A warrant was issued for the arrest of the accused.

A Husband and Wife Charged with Assault and Battery.—John Gallagher made complaint against John M'Briar and Hannah his wife for assault and battery yesterday before Alderman Lynch. Gallagher states that M'Briar knocked him down while Mrs. M'Briar pelted him with stones. The pugilistic couple were arrested and forced to enter bail to the amount of $300 each to answer at Court.

False Pretence.—A. H. Rowan was charged before Alderman Strain, yesterday morning, with procuring from P. F. McNally one hundred and twenty-five dollars by false and fraudulent representation. Rowan was arrested and held in the sum of five hundred dollars to answer at the September term of the Criminal Court.

Seriously Injured.—A young man named Christian Walp, was severely injured by being thrown out of a wagon belonging to the General Grant Engine Company, on Rebecca street, in the First ward, on Monday evening. He was taken to his home immediately after the accident, where he now lies in a critical condition.

Sun Struck.—Patrick Fitzgerald, a coal hauler, was sun struck yesterday morning in the First ward, Allegheny. He was in the employ of Rev. Mr. Phipps, who summoned Dr. Thorn. The usual remedies were applied and Fitzgerald is now in a fair way of recovery. He is a married man and resides at Fort Perry.

Found in the Street.—A sorrel horse was found wandering about the streets last night. The animal was taken to McMasters' livery stable, where it died a few hours after, it is supposed from being driven too hard on the preceding day. Mr. Howard, the proprietor of a livery stable on Second street, was the owner.

A Coal Digger Injured.—A coal digger named John Dick was injured in a coal pit near Noblestown, on the line of the Steubenville Railroad, yesterday, by a lot of slate falling upon him while at work. His injuries are of such a character that his recovery is considered extremely doubtful.

The Sinking of the Hall.—In yesterday's *Gazette* we noticed the sinking of the steamboat Hall, of this city, in the Mississippi river, near Memphis. She had an insurance of $12,000 in this city, the amount being equally divided between the Eureka, Boatmen's and Cash Companies.

Malicious.—John Rook was arrested yesterday and brought before Mayor McCarthy, charged with maliciously breaking a lamppost, the property of Messrs. Weldon & Kelly, plumbers on Wood street. After a hearing the accused was held to bail for trial.

Getting Better.—Michael Sullivan, the man who was stabbed on Saturday night in the Fifth ward, is getting along very well now, his physicians believing him to be almost out of danger. McAnnally will have a hearing on the 2d of July.

Mayor's Court.—There were ten cases of drunkenness and disorderly conduct before his Honor yesterday morning. Three were discharged, two paid light fines, and the remaining five went to the Hill for brief periods.

Surety of the Peace.—Mary Andrews yesterday appeared before Alderman Hunsberger and made an information against Lewis Hoff for surety of the peace. Lewis was arrested and held to bail to keep the peace.

Examination.—The closing examination of the Sewickley Academy will commence to-morrow morning, at the institution, in the borough of Sewickley. All persons interested are respectfully invited to attend.

Destructive.—A heavy freshet occurred in Beaver creek on Sunday last, the water being higher than for several years. Considerable damage was done to establishments along the bank.

TELEGRAMS.

FROM WASHINGTON.

Governors Swan, Cox and Morton in no Hurry to Convene Their Legislatures —Recovery of Secretary Stanton—Representative Washburne Dangerously Ill.—The Kuownix-Coffroth Contested Seat Case—Health of Jeff. Davis Again Failing—The Bill for the Increase of Rifle Army—Senate to Solicit Information from the Secretary—Mexican People Opposed to Maximilian—The Visit of Santa Anna.

NEW YORK, June 26.—The morning papers contain the following special dispatches from Washington: Governors Swan, Cox and Morton are understood to be in no haste in convening their respective Legislatures to act on the Constitutional Amendment, and to have signified the same to the President. Tennessee men now here doubt whether Governor Brownlow can get a quorum together in any reasonable time.

Secretary Stanton has so far recovered from his recent illness as to be able to return to the War Department and resume his duties.

Representative E. B. Washburn, of Illinois, was taken suddenly ill with congestion of the liver, during the proceedings of the House today. He fainted away, and was taken to the residence of General Grant, where he now lies dangerously ill.

The House Committee on Elections have decided the contested election in the Fourth District of Missouri, in favor of the sitting member, Mr. Kelso.

The arguments in the case of Koontz and Coffroth, from Pittsburgh, Pennsylvania, was concluded to-day before the Committee, and the indications are that the Committee will report in favor of giving the seat to Mr. Koontz.

The friends of Jeff. Davis have not given up the idea of getting him released on parole. It is alleged by the counsel of Davis that his health is very poor, and that a change of air will be more beneficial than all the medicines in christendom. Mr. Greeley is very urgent in the matter, and has put on record a strong letter to that end. The President, however, has given no indication that he will interfere unless it is put on the ground of Davis' feeble condition. The report of the surgeon, which is received every week, is that he is gradually improving.

The Senate Military Committee have decided to substitute their bill for an increase of the army for the one which passed the House the other day. The Senate Committee are opposed to nearly all of the House bill. There is great danger that unless the two Committees recede from their determination the bill will be defeated. General Grant advises them to refer the two bills to a Conference Committee, and let them arrange a satisfactory measure.

The *Herald's* special says: It is stated by prominent Senators in Washington that Mr. Seward has concluded a secret treaty with Napoleon, by which the latter is to be disbarred from interfering with the movement of the troops now supporting Maximilian. After the departure of the French it is understood Maximilian will declare himself a candidate for the Presidency of the Mexican Republic. Having secured that position he is to take advantage of any small revolution that Mexico affords so many, and declare himself Emperor, thereby flanking the Monroe Doctrine and having a firmer imperial throne than at present. It is positively asserted that Seward will solicit information from Mr. Seward concerning this little game.

The same special also says: A dispatch from General Sheridan to General Grant states that nine-tenths of the Mexican people are opposed to the longer reign of Maximilian, and that when the French, Austrian and Belgian troops are withdrawn, he will have but few supporters in all Mexico.

The dispatch also states that Santa Anna is understood to be here in the interest of both Maximilian and the Church party, and should be closely watched by the United States authorities.

Terrific Tornado at Buffalo—Several Lives Lost—Heavy Damage to Buildings.

BUFFALO, N. Y., June 26.—During the tornado yesterday afternoon the schooners Mazeppa and Goshawk broke from their moorings and run into the canal boat Monitor, killing Mrs. Mallory, wife of the steersman.

One man was killed at Black Rock by a car on the track being blown against him. Another man is supposed to be fatally injured by being struck with bricks from a falling chimney in K remlin Block. The roof of the west wing of the Foundling Asylum on Edward street, was blown in, and three children, who were in the play room at the time, were almost buried in the debris.

In addition to the damage done by the storm to the property already telegraphed, are the following: A heavy barn was blown from the roof of Capt. Dobbins' house, on Magard street, and crushed through. The cupola of the School house on Seventh street, was carried away. The Board of Trade Rooms sky lights were broken. Nearly half of the upper light roof of the Niagara Falls depot gave way to the violence and force of the gale. St. Joseph's Cathedral was damaged, and the wood work of St. John's Church tower was swept almost entirely away. Messrs. Brisbun's Arcade building had about thirty feet of roof torn off, and the double skylights over Staght's billiard saloon. A machine shop and agricultural works on Chicago street was partially unroofed. Mr. House's organ factory, on Clinton, near Elm street, had its front blown in. The total loss is not estimated yet, it was the worst storm known for a great many years. It lasted about half an hour.

The Late Memphis Riot—Report of Investigating Committee—Which Party Cause of the Riot—The Loss to the Government.

NEW YORK, June 26.—The report of the investigation of the Memphis riots lately, Colonel Johnson, Inspector General of the Department of Kentucky and Tennessee, and Major Gilbraith, aid to General Howard, and the Assistant Commissioner of the Freedmen's Bureau, has been made public. They say that the remote cause of the riots was the ill feeling existing between the low whites and blacks, both of whom are about equal in intelligence, being as degraded as human beings can be, and each advancing rival claims of superiority over the other.

The direct cause was a collision between the police and the discharged colored soldiers. The civil authorities took no official action whatever. The city Recorder made a speech to the mob, urging them to kill the entire negro race, and burn up the cradle. The quarters of General Barkle were threatened with destruction.

Three negro churches and eight school houses, five of which belonged to the United States, and about fifty private dwellings occupied exclusively by negroes, were burned. The loss to the government and to the negroes will foot up $98,300, and probably much higher.

The Cotton Crop—Despondency of the Planters.

NEW YORK, June 26.—It is said that the cotton planters of the South have labored under serious disadvantages this year. Heavy rains, inundations, tornadoes, insects, rotten seed, lack of implements, and insufficiency of labor, have made them hopeless of an average crop. The most despondent feelings them estimate that the coming crop will not exceed 300,000 bales, while others, more hopeful, estimate it at 1,500,000.

OFFICE UNITE. STATES PRIZE CONCERT,
WIGGINS, BRADFORD & CO., Proprietors.

WE WOULD MOST RESPECTFULLY announce that in consideration of the following urgent and very satisfactory) reasons, we have finally concluded that a postponement would be equally advantageous to the public and ourselves, namely, that we prefer to

Dispose of all the Tickets and give the Public all the Prizes,

than to hold a quantity of tickets (as proprietors usually do) and thereby enhance our chances of drawing the large prizes.

The drawn numbers will be published in the Chicago daily papers as soon as drawn, and when the drawing is over each agent will be furnished with a complete list of the drawn numbers.

In view of the above reasons, which we hope will prove eminently satisfactory,

WE HAVE POSTPONED THE DRAWING

FINANCE AND TRADE.

TUESDAY, June 26, 1866.

Gold advanced to 135⅝ to-day, an advance of over three per cent as compared with yesterday. The New York stock quotations to-day, as received by Mr. P. R. Mertz, were as follows: 1881's, 110⅝@5-20's, 107⅝@108⅛; 10-40's, 96 to 98⅝; 7-30's, 102⅝. Cleveland & Pittsburgh R. R., 88½; Pittsburgh & Fort Wayne, 98½; Erie, 66¾; Chicago & Northwestern, 79½; United States oil's, 9½; Gregory gold, 22.

The high gold premium, keeps up a lively demand for 7-30's, especially the new bonds, which have a little longer time to run; and remain steadier in price since the European markets do not effect them. Seven Thirties are somewhat neglected, and are likely to suffer a decline in the face of July settlements, money being in better demand in the East, and is exceedingly hard to borrow, even on the best securities here. Mortgages on the best property are offered at 9@10 per cent, and do not find ready purchasers. There are many men of means who are in the habit of investing in this way—holding back for something to turn up when they can make a heavy percentage on their capital within a very short period.

The gold market was rather firmer to-day, the advices from Europe still being unsatisfactory, and the fact that the passage of the tax-in bill will probably be delayed until after the 4th of July, is also making a slight impression.

Railroad stocks are without any special excitement, excepting Erie, in which a big advance is predicted by the "flowning ones;" the "short" interest is represented in New York, that a sudden and big advance is almost inevitable. Cleveland & Pittsburgh is also prepared for a sudden advance.

Mining stocks, appear to be looking up all over the country. Gregory Gold stock is above the views of buyers, while United States Oil Stocks are again taken hold of by a powerful clique, who will manage it for a "rise. Oil stocks, generally, are looking up again, and as soon as the export demand commences briskly, we may look for oil to appreciate in value sufficiently to enable some of the small companies to realize sufficient to declare dividends.

Sale of stocks on Tuesday evening, June 26th, at Commercial Sales Rooms, No. 100 Smithfield street, by A. Mellwaine, Auctr:

Second National Bank	125 00.

—The recent excitement in the gold market has given rise to much discussion, and has had the effect to bring out some facts and figures that are calculated to set some people right on most important questions. Prominent among the figures that have been recently presented is a statement in the *Journal of Commerce* which shows that for a series of years the "balances of trade" between the United States and Great Britain has been in favor of the former, and that from the year 1854 to 1864 the exports from the United States exceeded the imports in the aggregate sum of £130,852,798 sterling. The Statement is confined to our trade with Great Britain, and does not include France, Germany, or any other country with which our trade is worthy of remark, also, that the statement ends with the year 1864, and that our imports since the close of the war have been largely in excess of years previous. But the statement is important as showing that, after all said and done, it is not our excessive imports alone that are dragging the noses of our people down to the grindstone, but if the country was walled in so that there could be no importation of foreign goods, nor exports of gold, the present volume of currency would be enough to crush the vitality of any people in time, and no matter what Congress may do reference to the tariff, it will be found that unless something is done to relieve the circulating medium of the country, we shall become eventually so puffed up that we must needs burst.—*Phila Press.*

—The Detroit *Tribune*, of Saturday thus records the finale of an Oil Company:

On Thursday evening a meeting of the stockholders of the "Detroit Petroleum and Mining Company" was held in this city, where most of the stock is owned, for the purpose of hearing a final statement of the affairs of the Company. Operations were commenced in April, 1865, and continued for about one year. The total amount invested was $38,156; the farm, located in Lorain County, Ohio, sold at auction this month for $5,025, and the engine and machinery for $1,500. After all the debts of the Company are paid, there will remain about $1,300 to be divided among the stockholders. A warm discussion took place among the stockholders and directors in reference to the management of the Company's affairs by their Superintendent. There is some probability of legal proceedings soon being commenced, touching his conduct in this oleaginous affair.

—By the failure of the Petroleum Bank, at Titusville, the Venango Bank, at Franklin and of Culver, Penn & Co., the people of the oil regions have lost nearly six hundred millions of dollars! As security for the circulation of the two banks named, there has been deposited with Auditor General Lamberton of the State something like a million and a half of United States securities. These securities, it is now alleged, were improperly sent to Culver, Penn & Co., of New York, who were not officers of the banks named. In this connection we learn that C. V. Culver, L. H. Culver, and John M. Penn, comprising the firm of Culver, Penn & Co., have been arrested at Franklin by the Chief of Police from Harrisburg, upon a charge of embezzlement and fraud. The warrant was issued in the instance of the Petroleum Bank of Titusville.

—It is said that one single operator in New York was the *million* king in gold purchases when in the forties; and it was his lot that was thrown on the market on Monday, which broke down. His profits must have been at least half a million on his sales, and it is not improbable, he sold short, and now continues on that line he may clear a few hundred thousand more. On the other hand, an operator who had been purchasing all the way up from 130, but not see that it was time to realize at 136, but continued "going long" until he failed back to 132, which is said to be his only failure that occurred during the recent excitement.

New York Money and Stock Market.

NEW YORK, June 26.—The Gold market towards the close fell off to 135⅜. The market for Exchange is nominally firmer, but there is very little doing; Bankers' bills are quoted at 108¾@108⅝. Government securities firmer this afternoon on the Five-Twenty bonds.

The following were the closing prices. Coupons of 1881, 109½; Five-Twenty Coupons of 1864, 107¾@107⅝; Five-Twenty Coupons of 1865, 107¾@107⅝; Five-Twenty Coupons of June Seven-Thirties, 107¾@107⅝.

The Stock market was quiet and steady at the second Regular and last Board to-day, and the feature of the day, and at one time the cash stock was worth ½ @ cent. The present Bull movement does not make much progress and it closed weak.

Petroleum and Mining stocks were quiet and steady; Benton, 67½; Consolidated Grey, 50; Funnell Keek, 57; Smith and Parmice, 97½; New York Gold, 40; Corydon, 12; Cascade Rivers, 50.

Later—At the four o'clock call to-day, stocks sold as follows: At the four o'clock call the following were the principal sales: Quick Silver Company, 48; Mariposa preferred, 21½; New York Central, 96; Erie Railroad, 66½; Michigan Southern and Northern Indiana Railroad, 78½; Cleveland and Pittsburgh, 88½; Chicago and Rock Island, 93½; Chicago and Northwestern, 39½; Chicago and Northwestern preferred, 79½; Pittsburgh, Fort Wayne and Chicago, 97½; Gold closed at 135½.

The *Commercial's* Money article says: Affairs in Wall street continue very quiet, and without an attendant depression in rates, gold still absorbs the speculative interest. The low condition of the specie deposits in banks has added fuel to the fire of the Gold room. After the first of July about $9,000,000 will be paid out of the Treasury upon Coupons which, in the absence of a demand for export, will keep the market easier for a time. Sterling Foreign Exchange is quiet, but on the whole firm. The leading drawers are asking 109 for sixty days on Sterling, but there is a small floating supply of prime bills offering at 108¾ per cent. below that rate. Commercial bills are comparatively unsaleable. Good documentary sterling has been sold this morning at 109¼. It is difficult to sell the best names at over 109⅝. The Stock market continues very dull. Erie shows more firmness, apparently from purchases to cover short contracts at the Boards. The price opened at 66¾, and closed at 66¾. Chicago and Rock Island has also another slight upward turn. The preferred stock advanced ¾. The common closed at 79¾. Governments are quiet. Quotations unchanged. The Gold market is sluggish. There is a great abundance of idle funds, and the demand from brokers and merchants is very slight indeed, the rate is generally quoted at 4 per cent., with exceptions at 5 per cent. Discounts are quiet. The best names pass readily at 7@9 per cent.

The Post's money article says gold is active and strong; borrowing rate is 1⅞ in favor of the lender. The money market is easy, and very few lenders can get more than 4 or 5 per cent. for call loans, on good securities. Commercial paper is rather more freely offered, and the rates are 5@9 per cent. The Stock Market is dull. Government securities are inactive, but quotations are well sustained; Registered, 1881, are wanted at 125; Coupons, of '65, at 107¾, and 10-40's at 98¼@98⅜; 7-30's are firm at 102⅝@102¾. State stocks are firm; New York Bounty Loan is inquired for at 102¾, and 6's of '72 at 96. Railroad shares are quiet, except Erie, which is active, and closed at 66¾. After the board it closed at 66¾; Reading at 108¼; Cleveland & Pittsburgh at 88; Northwestern at 79¼; Fort Wayne at 98.

Canada Lumber.

The Ottawa correspondent of the Toronto *Globe* says the lumber trade of Ottawa is active this year. Already nearly one thousand sawlogs have come down the Ottawa, and it is calculated that 100,000,000 feet will be turned out. The Ottawa mills during the season, a great portion of which is destined for the United States markets. The abrogation of the Reciprocity Treaty does not seem to affect this branch of Canadian trade.

Wheat Crop.

Farmers say through Wisconsin there never was a prospect for a better wheat crop than at present. It looks now as though the wheat crop would be all that was desired, the wet state of the ground keeping the chinch bug away.—*Milwaukee Wisconsin.*

Wheat Harvesting.

The harvesting of the winter wheat has commenced in Southern Illinois and Missouri, and the yield is said to be good in most localities.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 26, 1866.

The produce markets continue quiet and rather dull, and with a demand restricted almost entirely to supplying the immediate wants of the local trade, we have but comparatively few round lot operations to report.

GRAIN—There is less inquiry for Wheat, but as there is but little to offer, prices are well sustained; we continue to quote No. 1 spring at $2.35, and No. 2 do at $2.20. Oats a little dull but unchanged; sale of 250 bush Chicago Oats from store at 57. Penna. and Ohio are quoted at 56@58, in elevator. Sale of 1000 bush fair Spring barley at 90 cts, and 1000 bush No. 1 Chicago Rye on private terms, understood to be above one dollar. Corn is quiet and in good supply.

PROVISIONS—Bacon is firm, with a fair jobbing demand for Shoulders and Canvassed Sugars Cured Hams; sales of the former at 16 @ 16½, and the latter at 25. There is not much inquiry Sides. Lard is dull owing to the low price of Butter; it is still held firmly at 22½ for steamed, and 25 for prime kettle. Mess Pork is dull and unchanged.

FLOUR—The demand for Flour is only moderate, but prices are well sustained. We continue to quote at $10.00 to $11.25 for fair to good Spring Wheat Family; $11.50@12 for half Spring and half Winter, $12.50@13 for all Winter, and $14@16 for fancy brands. Rye Flour is quoted at $6.75.

POTATOES—There is a continued fair demand for prime Peach Blows, and we have a sale of 1 car load, in lots, reported at $1.40 to $1.45 per bush. New Potatoes are selling at 45 per barrel.

EGGS—Continue a little dull, but notwithstanding the arrivals are again increasing, the price remains unchanged at 25.

MILL FEED—The demand is improving though prices remain unchanged; sale of 1 car load Middlings at $1.40, and 1 do at $1.50. Shorts are selling on track at $1.

DRIED FRUIT—Peaches are in fair demand at 18 to 23 for, quarters and halves. Apples are selling at from 15 to 16 cts.

BUCKWHEAT—is in good supply and dull, the seeding season being about over. We now quote at $2.25 per bush.

BUTTER—There is some little inquiry for packed, and we can report occasional sales at 20 to 22. Prime Rirkin Butter is selling at 22@23 cents.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 26, 1866.

CRUDE—There was rather more activity in the Crude market to-day than yesterday, which was owing mainly to the fact that holders were more anxious to realize, and not that there was any increased disposition manifested on the part of buyers to take hold. Yesterday bulk sold at 13½, while to-day 13 was the highest figure reported, and towards evening barreled oil could probably have been bought at 12½@12¾. Sales of 800 bbls in bulk at 13; 300, bbls returned, at 13; 500 do do, at 13; and 1000 in two lots, of 500 each, at 13. We can also report a sale of 100 bbls "Smith's Ferry Crude" at 12, though it is generally held at 12½@13.

REFINED—There is a continued fair demand for Refined oil, but buyers generally are asking for still further concessions. Sale of 500 bbls for immediate on the cars here, at 33; 500 to be delivered during the first half of July, 1000 do from, at 34; and 250 bbls, light straw, to white, delivered in Philadelphia, at 36. The two first sales, reported at 33 and 34 cents, on the cars here, are considered a little above the market, as 38 for present and 29 to 30½ for next month, seem to be the best offers that can be obtained for those deliveries in Philadelphia, while 36 cents delivered in that city, is not a large figure. Sales reported as follows: January, 12; September, 43; October 44; and November, 45. In fact there is nothing doing of any consequence, as the demand is restricted entirely to supplying the immediate wants of the local trade.

ARRIVALS—The arrivals of oil continue fair for the season, though not very large. Some of the arrivals below noted reached here yesterday:

W. P. Logan	70	Nat. Ref. Co	1400

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 26, 1866.

CATTLE—The supply of cattle this week was rather larger than last week, being estimated in round numbers at eight hundred head, all of which changed hands at about former quotations. The market opened hurried, but soon broke down and closed very heavy, notwithstanding there was an unexpected demand for shipping, and all of the best cattle offered were taken for that purpose. Butchers bought very sparingly—just enough to supply their immediate wants, and as the oppressively hot weather restricted the demand for fresh meat, it took but comparatively few cattle to supply this class of buyers. Had it not been for the fact that there were two or three parties buying for shipment, the market would most undoubtedly have been much worse than it was, and we would doubtless have been a large number of cattle left over unsold. There is some inquiry for stock cattle, but farmers do not seem disposed to accept the prices now asked, and they hope that holding off, they will be able to buy at much lower rates. As will be seen by reference to the sales annexed, prime to extra cattle sold at from 8 to 8¾, and medium grades at 7 to 7½.

SHEEP AND LAMBS—The supply of sheep for sale is reported somewhat larger than last week, and as there was no improvement in the demand, the market ruled a little dull, though prices, as compared with last week, have undergone but little change. Quotations may be fairly given, in a retail way, at 6 to 6¾ gross, for common to prime fat lots of sheep. Lambs were also in good supply and dull; sales were made at $2.50 to $3.50 per head, according to quality. Included in the sales of sheep were the following: Emerick & Co. sold 25 head, averaging 95 lbs, at $4.50 per head, and Neely to Blackstock 97 head, averaging 95 lbs, at 5½ cents per pound.

HOGS—The demand for Hogs at these yards continues very light, and while the market is dull, prices remain unchanged at 9½ to 10¾ for fair to good averages in a retail way.

REPORTED SALES OF CATTLE.

Emerick & Co. to Marks & Co. 49 head of mixed cattle, averaging 1200, at 7½@8; Martin to Gay 66 head of extra cattle, averaging 1277, at 8; Myers & Neely to Grey 23 head of good cattle, averaging 1225, at 8; Myers & Neely to Grey 19 head, averaging 1225, at 8; Boose to Marks & Co. 21 head, averaging 975, at 7½; M. Funk to McAllister 19 head, averaging 1000, at 7½; Grey to Haas & Krause to Marks & Co. 9 head of good cattle, averaging 1300, at 8½@8¾; Shumberg to Marks sold two yearlings at 6; Marks sold two oxen at 6½; Lafferty & Co. sold to Neely 17 head at—; Lafferty & Co. bought in 20 head for shipment at 8@8½. Hazlewood & Boyd retailed 20 head for Sargent at 6½ to 7½. Marks & Trautman 80 head at 7¼@7¾. Mellon & Boyd 24 head at 7½@8. Greenwald & Cain 77 head at 7½@8. Myers & Neely 73 head at 7½@8. Rothchilds & Eckert 28 head at—. Haas & Crouse 58 head at 7½@8. Glass & Lafferty 60 head at 7½@8. Morgan 19 head at 7½@8. Emerick & Co. 20 head at 8@8.

New York Cattle Market.

NEW YORK, June 26.—The current prices for the week at all the markets are as follows:

BEEF CATTLE—First quality, per head, $17.50@18.50; fair to good, $15.50@17.50; common, $13@15; inferior, $12@14.

COWS AND CALVES—Extra, per head, $80@90; first quality, $75@80; ordinary, $60@75; common, $50@60; inferior, $30@45.

VEAL CALVES—First quality, per head, $12@13; ordinary, $10.50@11.50; common, $10.00@10.50; inferior, $8@9.

SHEEP AND LAMBS—Extra, per head, $8@9; prime quality, $6.50@7; ordinary, $5.50@6.50; common, $5@5.50; inferior, $4@4.50.

SWINE—Heavy, corn fed, per pound, 10½@11¾; light and medium, 10@10¾.

There was no material change in the market for dressed hogs, though the sales reported were at lower prices, except for prime steers, which if anything were a little firmer, some of the best realizing 9¾, but the lower grades were numerous, and sold pretty low. The range of prices was as usual, though the bulk of the cattle sold at $15.50@17.50. Nearly all were sold by noon, with no prospect of anything left over.

Veals without change, though there were to-day a few extra on quotations.

Hogs dull and hardly so firm in the local market.

The total receipts of all stocks at all the yards for this week, were Allerton yards, 3 droves, 3,956; Cows, 162; Veal Calves, 261; Sheep and Lambs, 369. Browning's yards—Beeves, 10; Cows, 11; Veal Calves, 194; Sheep and Lambs, 5,192. Abrien's yards—Cows, 19; Veal Calves, 28; Sheep and Lambs, 600. Chamberlain's yards—Beeves, 1,000 to 1,200 lbs, 35; Veal Calves, 258; Sheep and Lambs, 7,794. To butchers—Beeves, 1,084; Veal Calves, 906; Sheep and Lambs, 600. Foot of 37th street; Swine, 14,416. Total Beeves, 1,441; Cows, 70; Veal Calves, 1,248; Sheep and Lambs, 14,419. Total last week; Beeves, 5,262; Cows, 80; Veal Calves, 1,595; Swine, 18,449; Sheep and Lambs, 14,921,

New York Produce Market.

NEW YORK, June 26.—Cotton very quiet, but holders are asking 37@38c for Middling Uplands. Flour is 5 cents lower, but the sales are steady and unchanged for medium and good grades, at $7.25@8.50 for Extra State; $8.50@10 for Extra Round Hoop Ohio, and $10.05@15.75 for Trade Brands, closing quiet. Whisky dull and nominal at $2.25 for Western. Wheat dull and common grades nominally lower; Prime New No. 2 Milwaukee Club at $2.10, an outside price. Rye, Western, $1.05@1.10. Barley and Barley Malt dull. Corn more active and 1@2c lower, with 50,000 bushels purchased new Mixed Western, and 80@91½c for sound, do; also 6,500 bus. THE NEW Spring and Summer Medicine.

FLUID EXTRACT SARSAPARILLA,

COMBINED WITH

Iodide of Lime.

PREPARED FOR

G. W. PETTES, BOSTON,

BY

James R. Nichols & Co.,

MANUFACTURING CHEMISTS,

MANUFACTURERS OF THE

ELIXIR PERUVIAN BARK

WITH

Protoxide of Iron,

Which has become so favorably known as a

Tonic and Restorative,

By Physicians and Invalids in all parts of the country.

The new preparation, "SARSAPARILLA IN COMBINATION WITH IODIDE OF LIME," presents one of the most prompt alterative agents to a form capable of exerting full action upon the system, and at the same time pleasant and agreeable to administer. It is conceded that the alterative, resolvent, or tonic effects of Iodine, are exerted most decidedly when associated with other alteratives, in combination; and the Sarsaparilla seems to fulfil perfectly all the favorable requisitions.

The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, showing that it has the tonic properties of a marked character. Its alterative effects are manifest in its ready combination with the blood and tissues. Hale, corpulent women and children improve rapidly under its use, and the vital functions become a healthy condition.

It is admirably adapted to a large number of cutaneous affections peculiar to children. It is recommended to them, both by the mildness and efficiency of Medicinal effect and the pleasant, attractive form of the remedy. It may be given for a long period where constitutional influences are desired, and no repugnance, or disinclination to take the syrup, encountered. Many sufferings, Hip-Joint Disease and Distortions of the spine, have been relieved, in a given persistently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather.

The accumulation of morbid matters in the system seems to become magnified and very troublesome. Lassitude, Headache, Boils, Costiveness, Loss of Appetite, Pains in the Joints, Indigestion, etc., are very common complaints, and a remedy is greatly adapted to exterminate or drive off these affections than this new combination of SARSAPARILLA WITH IODIDE OF LIME.

No preparation does it, or which approximates to it, so soon.

Alterative, or Blood Purifier,

has ever before been placed within the reach of humanity. Indeed, it is an entirely NEW and SCIENTIFIC COMBINATION, and has no respect resembling anything hitherto employed.

The opinion of medical men concerning it, the description of its chemical character, therapeutic value, manner of use, etc., are given in a circular which can be had at the store of any and all druggists.

For sale in Pittsburgh by R. E. SELLERS & CO., and all druggists.
